- Pinewoods — crop from pinewoods path shot
- Red Squirrels — crop from squirrel shot
- Homepage / default — already have `formby-squirrel-hero.webp`, may just need a tighter crop

## P4 CLARE'S AUTHOR PHOTO

Used as byline avatar (clare.png) on every blog post. If the current one is good, skip. Otherwise a fresh headshot — natural light, outdoors, Formby backdrop ideal.

### TIPS FOR TODAY

- **BEACH:**

Before 10am or after 3pm — better light, fewer people.

- **PINEWOODS:**

Morning light through the pines is the money shot — the path from the NT car park toward the beach.

- **SQUIRRELS:**

Best around the feeders near the main trail — early morning. Don't bring dogs.

- **OG CROPS:**

Shoot landscape (3:2 or wider). You can crop to 1200×630 in editing — don't try to frame exactly in camera.

- **GOLDEN HOUR**

on the beach will look far better than midday flat light for the hero shots.
